

PONY MEASURING SESSION
FEBRUARY 28th, 2025
CENTRO HÍPICO SOTO DEL ESPINAR, MADRID

In compliance with the FEI 2025 regulations, all ponies wishing to participate in an international competition must have an FEI measurement certificate. Therefore, the Royal Spanish Equestrian Federation (RFHE) is organizing a new MEASURING STATION in Spain for ponies of any discipline, to facilitate their participation in the first international competitions already taking place since the beginning of the year.

It should be noted that this is the only measuring station planned in Spain for 2025.
